Position Summary:

Founded in 1965, the Henry Samueli School of Engineering educates more than 4,600 students (3,728 undergraduates and 961 graduates) with an integrative approach that blends fundamentals, research and hands-on experience. The School's aim is to unleash innovation, create opportunities and inspire ingenuity. The Samueli School's faculty members are leaders in their disciplines who have achieved worldwide recognition for their research and dedicated teaching. The School includes six academic departments. Under the leadership of the Dean, the School pursues research that is timely, socially responsible and cutting edge, and works in partnership with industry, state, and federal agencies to promote the transfer of research to applications that benefit society. Current research thrusts include Communications and Information Technology, Energy and Sustainability, Human Health, and Advanced Manufacturing and Materials. Part of the Dean's Office, the Curriculum, Analytical Studies, & Accreditation (CASA) ...supports the academic departments within the Henry Samueli School of Engineering in the planning and preparation for the functions of Accreditation, Curriculum Management and Course Enrollment Management with internal and external entities. The CASA office provides assistance and support to the various educational departments, staff, and faculty with the Henry Samueli School of Engineering through our efforts in general supervision, advise and management of the Catalogue updates and changes; processing and administrating of Articulation Agreements; compilation and reporting on Student Success Analysis; as well as providing support and execution of departmental Course Management and Scheduling.

In consultation with department management but working with a high degree of independence, applies in-depth knowledge of department / school / college requirements to determine the courses to be taught by the department / school / college toward the B.A. / B.S. and graduate degrees. Takes into consideration the proper sequencing of courses for progression toward degree, courses taught in other departments, and other complicating factors. Makes recommendations for replacement courses. Work is reviewed by results achieved. Under general direction of the department Supervisor, the candidate is responsible for curriculum management for The Henry Samueli School of Engineering. Responsible for all published content in the UCI General Catalogue related to the Samueli School of Engineering. Responsible for obtaining approval of all course and degree programs and related policies. Oversees all articulation efforts with California Community Colleges,

and other domestic and international institutions. Provides analysis of student success related to academic program content. Participates in the implementation of course offerings, including course scheduling, teaching plan analysis, determination of instructor workload, and broad support to faculty, staff, and students. Participates in ongoing training and support to faculty and staff on accreditation policies and procedures, associated criteria and processes, and provides general support for the School's accreditation and program reviews. Participates in broad data analysis activities, data acquisition, and development of methodologies for a wide range of internal and external needs.

Key Responsibilities

List key functions and the estimated percentage of time spent performing each of the responsibilities. Indicate which responsibilities are considered "Essential" to the successful performance of the job as defined by the EEOC: "Essential functions are the basic job duties that an employee must be able to perform. You should carefully examine each job to determine which functions or tasks are essential to performance."

Example:

25% Essential Performs basic design, development, modification and debugging of software. Evaluates basic software for functional areas. Analyzes existing software or works to formulate logic for basic systems, prepares basic specifications and performs coding.

% of time	Essential Function (Yes/No)	Key Responsibilities (To be completed by Supervisor)
50%	Yes	Utilizing extensive knowledge of course content, facilitates new course approval and curriculum revisions through interaction with the Coordination of College Policy, Academic Senate, or similar organization.
	Yes	Advises department / school / college chair / dean on complex curricular issues and recommends courses of action when new courses, programs are introduced.
	Yes	Responsible for overseeing alignment of external degree programs and courses to School offerings for Articulation
25%	Yes	Working with a high degree of independence, in consultation with Chair / faculty committee, determines courses to be offered each term based upon department major requirements for B.A. / B.S. and graduate degrees, enrollment trends, course restrictions, and faculty availability.
	Yes	Recommends to department management replacement courses when necessary.
	Yes	Projects future course planning based upon faculty availability, taking into account sabbaticals, fellowships and grants, internal and external administrative assignments, and courses taught in other departments and / or other universities.
	Yes	Devises solutions to classroom space and scheduling problems, taking into account the curriculum needs of students, the needs of faculty, and available options.

10%	Yes	Provides support in the documentation and of compliance of policies and procedures.
15%	Yes	Other duties as needed, which may include basic office administrative functions, support with Admissions, software licensing, lab planning and support, and instructional support
